Since, in most cases, a patient representative will be creating the portal account. Please enter **YOUR** information below as the portal will require **YOUR** email address for access. Your role will be defined as the **CAREGIVER**.

Add Dependent

Now you will add information about the patient. In the portal, the patient is defined as the dependent when you enroll yourself as the caregiver. Once you have entered all the necessary information about the first patient the ADD DEPENDENT button will be active. If you have more than one patient to add to the portal - for example, your mother and father are both in a nursing facility, complete this screen then click **ADD DEPENDENT** and another screen will open to enter as many patients as needed. If you only have one patient to enter once completed click register.

**Add children or dependents whose account you will manage:** Add Dependent
